TEMPORARY SPRAY AREAS DESIGNED & CERTIFIED

BY TRUFLOW SPRAY BOOTHS (AUST)

Ph: 1300 BOOTHS

Australia Wide

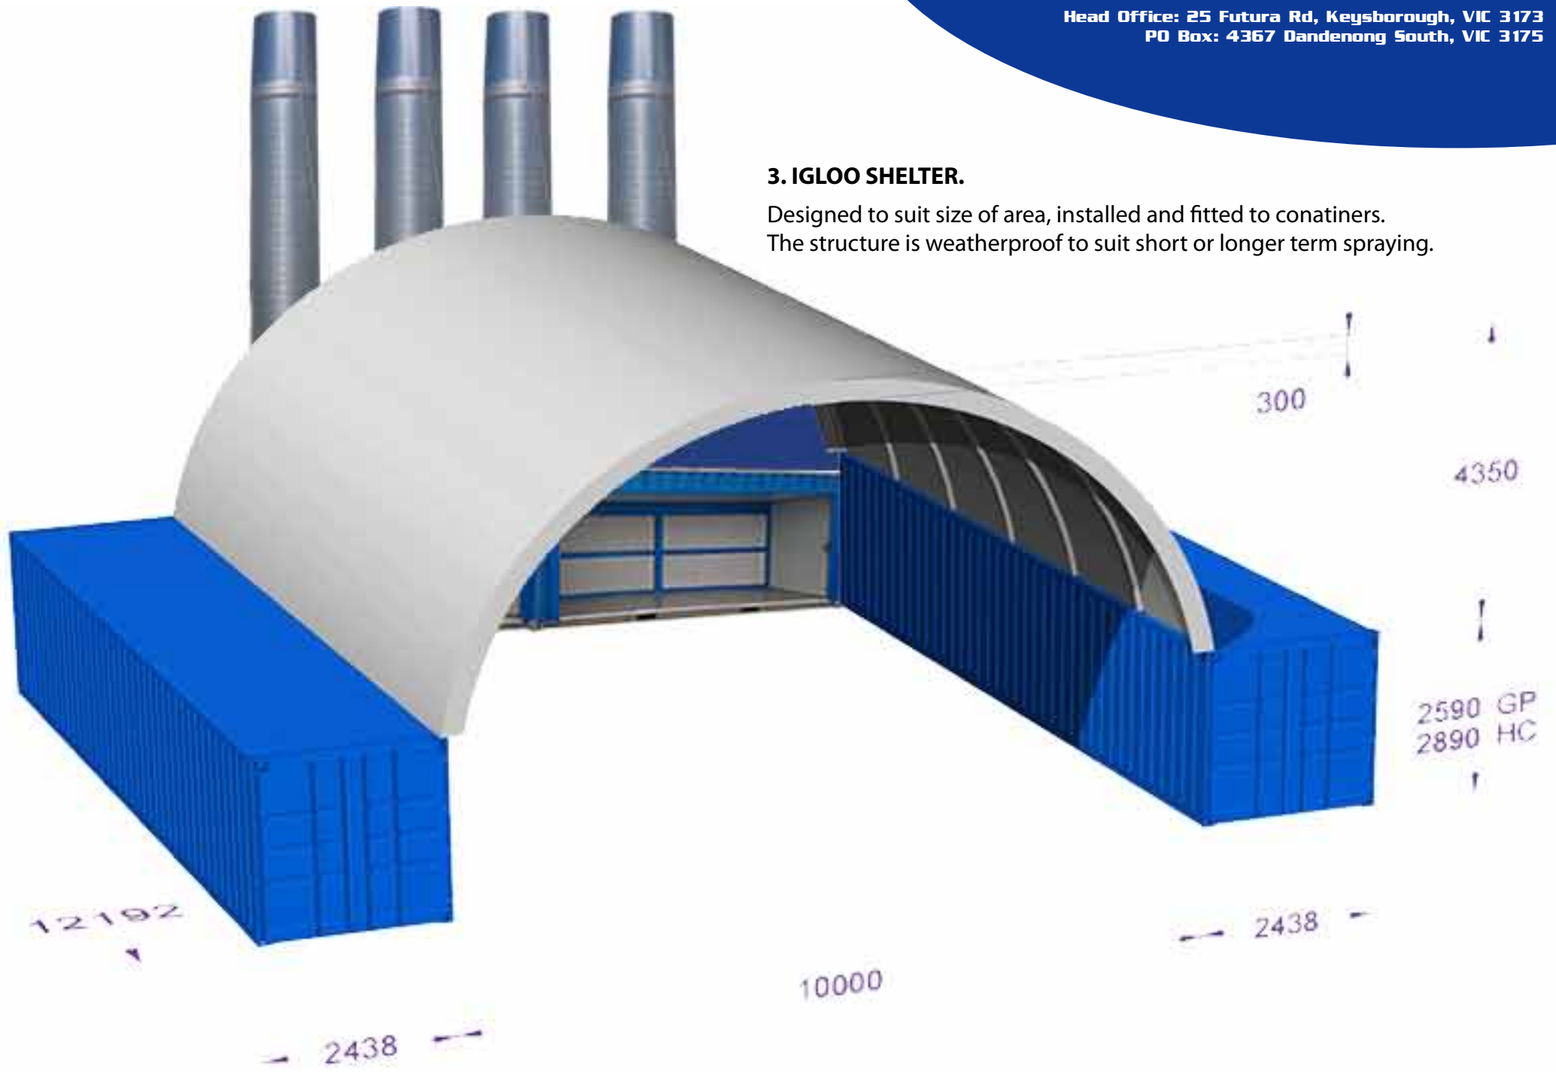
Head Office: 25 Futura Rd, Keysborough, VIC 3173
PO Box: 4367 Dandenong South, VIC 3175

1. SPRAY CUBE PORTABLE EXHAUST WALL.

Mounted at rear of igloo spray area, ductwork fitted to suit igloo shelter and fully intergrated controls the spray cube exhaust wall complies with 4114.1:2003 and can be plugged strait in and run.

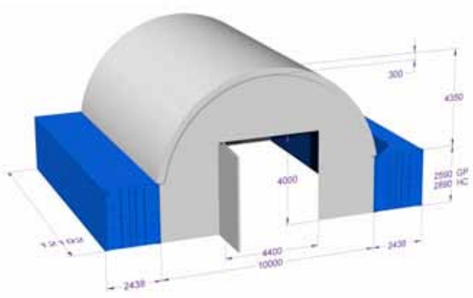
2. COMPRESSORS & GENERATORS

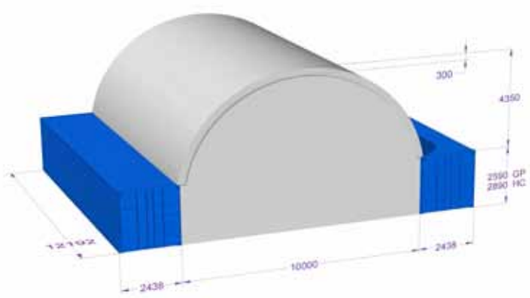
Compressors and Generators (Typically Diesel) should be used on site to provide power and air in remote areas where factory power and air is not accessible.

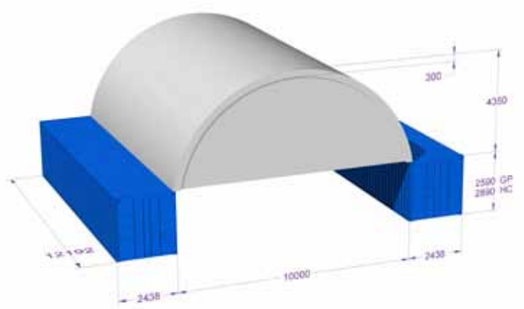


3. IGLOO SHELTER.

Designed to suit size of area, installed and fitted to conatiners.
The structure is weatherproof to suit short or longer term spraying.







**** INGLOO OPTIONS**

All igloo structures can be adapted with doors, covers and variations in size.
