

PROUDLY AUSTRALIAN
MADE

ELITE SEMI DOWNDRAFT LARGE SCALE

A Truflow Spray Booth will provide a clean and compliant area for your team to maximise finish quality during any spray painting process.

The enclosed environment manages overspray, filters paint, provides ventilation & discharges in line with work safe regulations. The installation of a Truflow booth will ensure a healthier better managed workshop in line with EPA legislation & Australian Standards.

The airflow through the work area has been engineered specifically to exceed Australian standards. Resulting in efficient control of solvent fumes whilst capturing the overspray in a simple yet effective low-maintenance filter system.

Our Elite Series range is a Australian made & designed, the product we produce is a true example of Australian ingenuity and engineering. Built to last the test of time in any high demand paint shop environment.

ELITE SEMI DOWNDRAFT STANDARD FEATURES

LARGE SCALE INDUSTRIAL, TRUCK, BUS AND MINING APPLICATION BOOTH

EQUIPMENT ENGINEERED TO LAST YOU A LIFETIME

ENGINEERED & FLEXIBLE

All Truflow spray booths provide a simple modular structure utilising only the highest quality Australian made air handling and heating equipment. They can be designed to suit any application by Truflow Engineers, they are simple to build and give the confidence you can only get when you buy Australian made. Available in a wide range of sizes and layouts the open booth can be easily tailored to suit your specific needs.

INCREASED AIRFLOW AND VENTILATION

Truflow booths have a higher than standard ventilation rate, ensuring that paint or finishing fumes are captured and disperse into the atmosphere quickly, reducing the concentration of hazardous chemicals in the air.

LONG LASTING CONSTRUCTION BACKED BY 5 YEAR WARRANTY

Manufactured to be robust and to withstand the demanding environment of a high volume paint facility. Constructed from engineered CNC galvinsed sheetmetal panels, 3mm steel fan cases with powder coated finishes and heavy duty steel frames where supports are required. A Truflow booth will last the test of time - which is why we are confident to offer our 5 year Australian Warranty.
