

Not just better.. .. its the best

The Facts:

It all adds up to a spray booth which provides better value for money and higher standard features than any other spray booth on the market today.

Mach One.

- Full Glass Double Doors
- Space Saving Design
- Internal Air Drive Ramp (Pneumatic Ramps)
- 7.5 kW direct drive Inlet
- 5.5 kW direct drive exhaust
- 45° Lighting System with L.E.D's
- Fully Automatic Control System
- Direct GAS fired Oven – Baking to 70.C
- Machinery: Roof / Side or Rear mounting
- Waterborn ready with temperature modulation.
- Insulated Panel Construction
- Fully approved to AS/NZS 4114.1:2003
- Supply air filters Viledon 560G
- Dry Exhaust filtration
- With full basement and floor grates

Mach Two.

- Full Glass Bi-Fold Doors
- Space Saving Design
- Re-Circulation, Energy recovery on bake cycle
- Internal Air Drive Ramp / or external
- 7.5 kW direct drive Inlet
- 5.5 kW direct drive exhaust
- 45° Lighting System with L.E.D's
- PLC Touch Screen Control: Multi-Program
- V.S.D Drives (Energy Saving System)
- Direct GAS fired Oven – Baking to 70.C
- Machinery: Roof / Side or Rear mounting
- Waterborn ready with temperature modulation
- Airflow Jets available on request.
- Insulated Panel Construction
- Fully approved to AS/NZS 4114.1:2003
- Supply air filters Viledon 560G
- Dry Exhaust filtration
- With full basement and floor grates
